At Performers Theatre Company, we **pride ourselves on offering high quality opportunities**. Our full-scale productions require significant time, expertise, and resources to ensure every child has a high-quality and rewarding experience. Costs such as professional direction, choreography, costumes, sets, lighting, sound, and venue hire all contribute to the standard of our shows. **Quality does have a price**, and **participation fees help us maintain the level of excellence** we strive to provide.

We are committed to keeping our productions affordable and inclusive and will never allow finances to be a barrier for a child to take part. However, fees must come from somewhere to sustain these standards and ensure we can continue offering an exceptional and enriching experience for all.
