# Introduction

A risk assessment is simply a careful examination of anything that may cause harm to you or others during our sessions. The aim is to prevent incident, accident and illness. It is carried out by identifying risk and using appropriate control measures to minimise or eliminate the risk.

It is the responsibility of Sam Gibbs to make sure that those carrying out the work are instructed and trained to do so using the control measures identified in the risk assessment. Sam Gibbs will directly supervise those with the least experience until they are deemed to be competent to carry out the work unsupervised. Those carrying out the work must co-operate with Sam Gibbs by following the instructions they have been given.

It is assumed that this Risk Assessment forms part of Performers Theatre Company's over-arching policies and procedures. It should not be viewed in isolation. Other documentation that should be considered, where applicable, includes;

- Performers Theatre Company Child Protection Policy
- Performers Theatre Company Child Protection Procedures Policy
- Performers Theatre Company Terms and Conditions
- Any handbooks, documentation and policies provided to partnership schools (after school clubs)
